Speed management plan consultation

Taupō District Council is currently considering changes to speed limits throughout our district. This is being undertaken as part of a national campaign to engage with communities and help shape a speed management plan that will reduce harm on our roads over the next ten years.

The majority of the speed management changes under consideration are around schools and the Taupō central business district, but there are also some rural roads where we are looking at reducing speeds following requests from the local communities or because of ongoing safety concerns.

As part of this we would like to hear your feedback on the changes we are proposing, as well as seek your assistance in how we can best share it with your wider community and gauge a better understanding of what our residents want.

I have attached our consultation document that outlines the proposed changes in your area and would appreciate the feedback of you and your group. It would be greatly appreciated if you could let me know when it would be convenient for us to meet with your group to hear this feedback and your input on how we can share it with the community.

I look forward to your response.

Bryson Huxley Senior Engineering Officer – Transport Strategy
